

Building Skills, Confidence, Community. Enrichment Programs.

School is not all fun and games, or is it? Stanza enrichment programs certainly make our students think so. Our “after school” activities are dynamic, interesting and growing. The best part: there’s no extra costs for participating. So, come on. Join the fun!

Overview of Current Enrichment Opportunities

GetLit

At the intersection of English class and Drama is GetLit. This engaging program gets students to present poetry, build a portfolio, and even record their own performances to document areas of growth. It’s challenging, engaging, and really popular.

★ Students earn credits toward graduation.

Mastering the Global Game

This lively course sparks deep discussions on current affairs. Each morning, students receive a list of recommended articles to read. Then, they discuss their learnings during guided, interactive sessions twice a week.

★ Students earn credits toward graduation.

Youth Leadership Council

This dynamic group of teen leaders meets every two weeks to develop activities for the school and provide feedback on school operations.

WeThink eSports **wethink** inc.

eSports players develop valuable 21st century skills, such as creative thinking, collaboration, and communication. Our private, secure eSports community gets students to work as a team, set goals, and manage success and failure.

“We provide an immersive learning experience. Our students can learn as much as they want. It’s scalable, adaptable, and flexible.”

-Geoffrey Gibbs, Mastering the Global Game Instructor

Cross-Cultural Connections

World culture is more than a class or enrichment opportunity. It's infused in everything we do. Our students live around the world, creating an immersive, cross-cultural experience that deepens the learning process and enlivens class-based discussions. It's the ultimate enrichment opportunity because it's built-in.

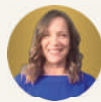

Some students living outside of the U.S. choose us as prep for an American college or to improve their English proficiency. Others are Americans living abroad who want a U.S.-based education. Whatever the circumstance, one thing is certain: all students benefit and learn from one another.

Calling All Ideas!

We're always up for new enrichment programs. If there's a course or activity you'd like to see on offer, let us know!

Stanza International Academy. Your new Plan A.

We know all students do not learn the same. For some, online is best. That's why we exist. We put high-caliber, student-led learning within reach for students grades 6-12. And we are succeeding.

We are Plan A for individualized, purpose-built online education.
